

Wouldn't you like 5 of these?

Raisbeck's Composite 5-Blade Swept
Propeller for your King Air 350

Brought to you by Raisbeck Engineering and Hartzell Propeller

(206) 723-2000 info@raisbeck.com www.raisbeck.com

Get the Best of Both Worlds: More Thrust, Less Noise with Raisbeck's Advanced Structural Composite 5-Blade Swept Propeller for Your King Air 350

Noticeably quieter, Raisbeck's Swept Blade Technology optimizes airfoil efficiency allowing a larger diameter propeller with less blade tip noise.

Additional Benefits

- Increased takeoff acceleration
- Better landing deceleration and accel-stop
- Improved single-engine climb
- Higher cruise speeds
- Unlimited blade life
- Reduced maintenance costs with 6 years/4000 hours TBO
- 54 pounds total weight savings versus OEM props
- 3 Year/3000 Hour Warranty
- Carbon fiber composite construction
